EDUCATION

RK. University

B.Tech. in Information Technology(IT)

CGPA: 8.1/10.0

Sept,2022- June, 2026

Rajkot, India

TECHNICAL SKILLS

Programming Languages: JavaScript, Dart, C, SQL, Python

Libraries/Frameworks: Node.js, Express.js, React, Flutter, Firebase, MongoDB

Web Technologies: HTML5, Tailwind CSS, JavaScript

Fundamentals: Data Structures and Algorithms, Operating System, Database Management Systems

YouTube Clone

Tech Stack: *React, Node.js, Express, MongoDB, Tailwind CSS, JWT, Cloudinary*

Mern

- Built a **full-stack YouTube-like platform** with authentication, video streaming, and user interactions
- Developed **dynamic, reusable UI components** using React and Tailwind CSS
- Implemented **JWT-based authentication**, protected routes, and role-based access control
- Created **REST APIs** for videos, likes, comments, subscriptions, and real-time notifications
- Added **search, pagination, dark/light mode**, and deployed on **Vercel (frontend)** and **Render (backend)**

ChatCom

Flutter

Tech Stack: **flutter,dart,firebase**

- User **registration, login, and logout** using **Firebase Authentication**
- Image Uploading using Firebase Storage
- Real-time chat with Firestore integration
- Used dependencies: **firebase_auth, cloud_firestore, firebase_storage, image_picker, provider**

Portfolio

Flutter

Tech Stack: **flutter,dart,firebase**

- Developed a digital portfolio app to empower politicians and improve public engagement
- Implemented sections for personal info, achievements, and contact options
- Integrated Firebase for real-time updates and backend support

Built secure Job Management API

Node.js

Tech Stack: **Node.js, Express, MongoDB, JWT**

- Built a **RESTful Job Management API** with **CRUD operations**, input validation, and error handling.
- Implemented **JWT authentication & bcryptjs** for secure user login/authorization.
- Designed schemas with **Mongoose ODM** and integrated with **MongoDB**.
- Secured API using **helmet, cors, xss-clean, express-rate-limit**
- Tested endpoints using **Postman**

JWT Authentication System

Node.js

- Focus only on authentication (**JWT, bcryptjs, middleware**).

CERTIFICATIONS

- Javascript and Flutter Certification(Infosys Springboard)
- NPTEL online certification in Data Science(python)
- NodeJs Certification(Infosys Springboard)
